

Beck Anxiety Inventory: Pre & Post tests 2020 results

Statistical Summaries: Beck Anxiety Inventory (2020)

	Beck Anxiety Inventory (pre-test)	Beck Anxiety Inventory (post-test)
<i>N</i>	28	28
<i>Mean</i>	23.93	10.32
<i>Median</i>	20.50	6.50
<i>Std. Deviation</i>	14.56	10.72
<i>Minimum</i>	4.00	0.00
<i>Maximum</i>	60.00	45.00

Layman's Conclusion:

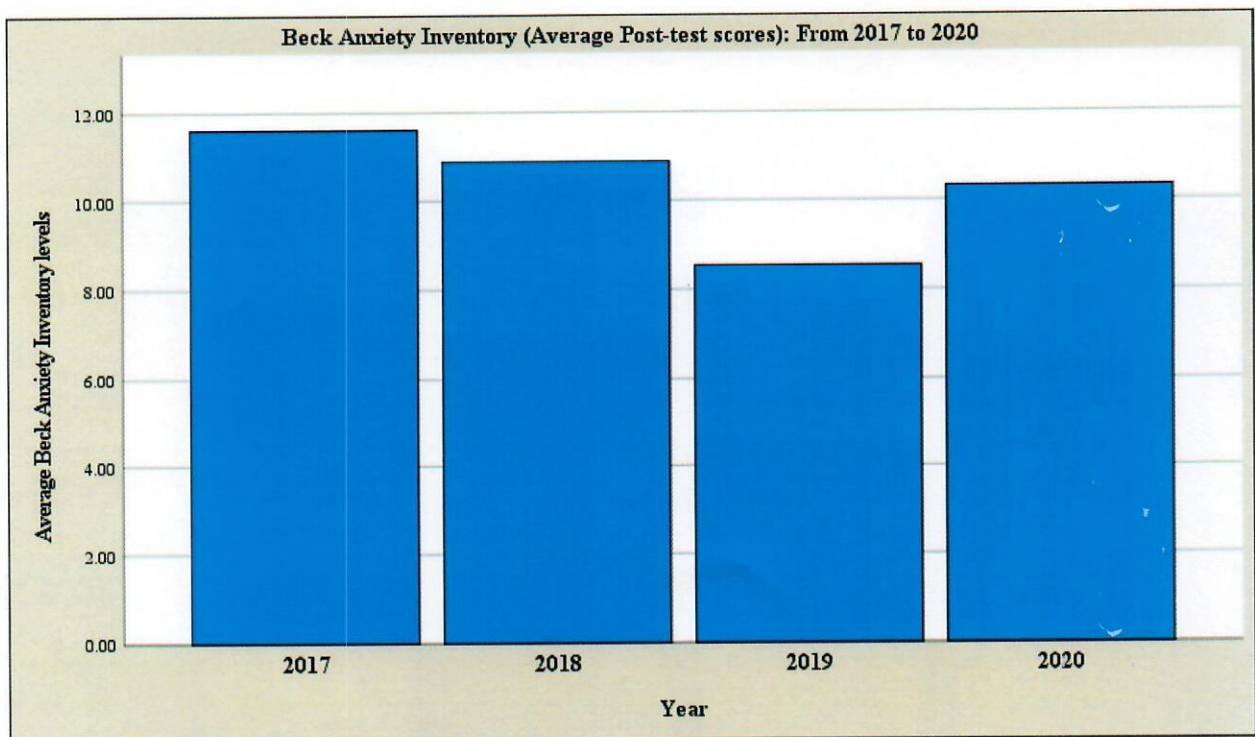

There were a total of 28 *Dedicato* clients that completed the client's treatment program for the year 2020. These results have shown that the anxiety levels of the participants significantly decreased by approximately 56.0% after going through the center's treatment program. The results have indicated that the participant's average *anxiety* levels after the program were significantly lower than their anxiety levels before the program indicating the center's treatment program provide meaningful insights and significantly effective treatment program in lowering the client's anxiety levels.

Beck Anxiety Inventory: Post-tests comparisons 2017-2020

Yearly Statistics: Beck Anxiety Inventory (post-test)

Year	<i>N</i>	<i>Mean</i>	<i>Median</i>	<i>Std. Deviation</i>	<i>Minimum</i>	<i>Maximum</i>
2017	20	11.60	8.00	11.45	0.00	42.00
2018	32	10.88	10.00	8.30	0.00	28.00
2019	31	8.55	6.00	10.07	0.00	38.00
2020	28	10.32	6.50	10.72	0.00	45.00
Total	111	10.22	7.00	9.96	0.00	45.00

Layman's Conclusion:

There were a total of 111 Dedicato clients that completed the client's treatment program for post-anxiety levels between the years of 2017, 2018, 2019 and 2020. These results have shown that the anxiety levels of the participants indicated a decreasing trend

across the three time periods from 2017 to 2019 but increased in 2020 by about 21.0% after completing the center's rehabilitation program. However, comparing the 2020 result to prior years have shown that the differences in post-anxiety levels were statistically not significant; indicating that the center's intervention and rehabilitation program were consistent in their delivery and could provide meaningful insights and significantly effective treatment program in lowering the client's anxiety levels.
